Col. Norton's Estate.

The Sienbenville Gautic of yesterday says:

"The will of the late Colonel Edward M. Norton, of Warren towr ship, was pre-ented for probate to-day. The estate is estimated at \$85,000. Of this he leaves \$25,000 to his widow, and that remaining he leaves to be divided equally between his five children. The estate is principally in Government bonds. The four sons of the deceased and son-in-law, Joseph Campbell, are the executors." The Gautic also says: "The extent of the late Colonel Norton's estate is a surprise to his friends. It was not supposed that he had more than half of the \$00,000 disposed of by his will." A. Siedenbach & Bro 1104 MAIN ST.

The Morgantown New Dominion in its report of the Art Exhibition recently given there, has the following about a well known Wheeling lady: By far the most attractive display was made by M is Rose Sweency, the principal of the Seminary Art Department. A crayon of stags, the only crayon exhibition, was an excellent effort. The best exhibit was a copy of Landseer's dog, "Beowulf," elegantly finned, which, was universally admired. Miss Sweency also had a fire screen, with golden rod on plush, and a French-plate univor decorated with blush-roses on an olive ground, which were very attractive. These with Florentine placques and other work sustained her reputation as an artist of the first rank.

A CLOSE CALL.

A Narrow Escape from a Serious Accident on the Hempfield. There was a narrow (scape from a frightful accident on the Hempfield railroad, a mile or two east of the city, last evening. A large dislodged from a bank and rolled upon the track. It was at a curve where the engine of a passing train would have dashed into it almost before it could be seen by the engineer. Mr. P. L. Kimberly chanced to pass on his way to the city a few minutes before the evening train from this city for Washington was due at the point. He realized the danger, and after a moment of healtation spent in pondering whether it were best to pass on and warn the train or try to clear the track, he procured a rail, and using it as ook overslowly until it rolled down to the other side of the track. His exon the other side of the track. His exertions were redoubled jast as he got the stone polsed upon the rall, by hearing the rumble of the approaching train. The stone had sorreely crashed into the gutter when the train whizzed past, lader with its precions burden of human lives, none of whom were aware how near they had been to a horrible death.

Increase of Glass Works Capacity—New
Gas Well-Building.
A commendable piece of work has been
glone by the Town Council in making a new
crossing near Scott's lumber yard. It is a
substantial job and reflects credit on the con-

now famous Baroley well.

Although cold weather is approaching and winter about to set it, the building boom has lost none of its vitality. Quite a number of new pulldings are in the cours of construction and others contracted for which are to be pushed to completion with all possible speed. In fact there is more work to be done in this line at the present time than at any period during the entire geason. Mechanics are scarce and work plenty.

We have received a couple of apples which, we are reliably informed, grew the pagt season on a tree supposed to be the first to bear fruit west of the Alleghenies, in what is now Pocahontas county. The tree was yielding list fruit when "the noble red man" was here in all hisgiory, and under its spreading boughs the dusky Indian maiden may have named the apple and counted the reeds just as her value are with a great the present day. The alarm wes given about 8-44 o'clock and men sent out in all directions; it was believed that the prisoner had struck out for Virginia. An examination of the jail showed that nothing had been broken, and both doors leading into the jail were locked. Either false keys were used or one of the sheriff's keys, which is necessarily left at the jail for use when prisoners are brought in during the sheriff's absence, was clandestinely used by some one. Evidently some-body outside was helping him. The sheriff Brendstoffs and Provisions

The telephone line between Fairmont an tance is about twelve miles, and the line will be a great convenience to the citizens of these towns. Another line, between Fairmont and Emithtown, will soon be a fixed fact, and its extension to Morgantown will doubtless follow. Dr. E. S. Strick ley and a number of other gentlemen or Shinnston are now engaged in forming a company to build still another line, from Fairmont, by way of Worthington, Shinnston and Bridgeport, to Clarksburg. There is already at elsphone line connecting Carksburg and Buckhannon, and this new line would give Fairmont direct telephone communication to the latter point. It is catimated that \$000 will build it. Various Minor News Notes of Current Interest.
